

Arts Integrated Learning

2021-08-19 05:41:54

Arts Integrated Learning is a creative and constructivist teaching learning approach through which students demonstrate their understanding of a concept through various art forms like role play, arts exhibitions, video making, film making, poster making etc. As a part of their English project, the students of Std IX have tried to integrate arts in the form of role play along with video making(based on ch-1 “The Fun They Had” of their English Literature book’Beehive’) relating it with the current situation & the problems faced by the students today giving us food for thought with a very simple message at the end.
