

Budding Economists highlight the path for upward move on the GDP charts.

2021-08-19 05:43:36

Budding Economists highlight the path for upward move on the GDP charts. "Economy with potential for quantum jump, infrastructure, technology-driven system, demography and an intelligence-driven supply system". PM Modi on the five pillars of self reliance to boost the economy. The novel corona virus has played havoc over the country's economy and at the same time has created that extra burden on the health and the pharmaceutical sectors. The affected sectors like education, tourism, transport and many other resulted in the big dip in the growth rate of GDP in 2020. An attempt by the Standard 10 students to analyse and interpret the impact of the pandemic on the country's GDP has brought out to light, the sectors that were worst hit and also the ones that could sustain the blow. The students, in their study have also highlighted the possible solutions along with the sectors that should be focussed on for the growth and sustenance of the Indian economy <https://fb.watch/7tGfqSn2mY/>
